

CURRICULUM VITAE MARIAGRAZIA PERILLI

PERSONAL INFORMATION	Mariagrazia Perilli Department of Biotechnological and Applied Clinical Sciences Via Vetoio, Località Coppito L'Aquila, I-67100, Italy mariagrazia.perilli@univaq.it
CURRENT POSITION	Full Professor of Clinical Biochemistry and Clinical Molecular Biology, University of L'Aquila, Italy
EDUCATION OTHER QUALIFICATIONS	1988: University of L'Aquila, Degree in Biological Sciences 1990: University of L'Aquila, Professional Qualification as Biologist 1992: PhD in Clinical Enzymology, University of L'Aquila, Italy
ACADEMIC APPOINTMENTS	01/1991- 08/1991 - EMBO fellowship on " <i>Cloning and gene expression of Mycobacterium fortuitum e Citrobacter diversus class A β-lactamases</i> ", Center for Protein Engineering (CIP)", University of Liège, Belgium. June-July 1991, Fellowship on " <i>Class A β-lactamases overexpression systems in E. coli</i> ", Center for Protein Engineering (CIP)", University of Liège, Belgium. January-February 1994, Laboratory of Molecular Biology, University of Siena 1994-1996: Post-Doctoral Fellow on " <i>Site-directed mutagenesis of class A and B β-lactamases</i> ", University of L'Aquila, Italy. 1996-2002: Technician in Biochemistry, Department of Biomedical Sciences and Technologies, University of L'Aquila, Italy 2002-2015: Permanent Researcher and Assistant Professor of Clinical Biochemistry and Clinical Molecular Biology at the Biotechnological and Applied Clinical Sciences, University of L'Aquila, Italy January-February 2010 – Center for Protein Engineering (CIP)", University of Liège, Belgium. Project on " <i>Biochemical and kinetic characterization of metallo-β-lactamase laboratory mutants</i> ". June 2015 - Erasmus Placement, project on " <i>Design of metallo-β-lactamases mutants</i> ", Center for Protein Engineering (CIP)", University of Liège, Belgium. 2015-2017: Associate Professor of Clinical Biochemistry and Clinical Molecular Biology at the Biotechnological and Applied Clinical Sciences, University of L'Aquila, Italy

TEACHING EXPERIENCE	<p>1998: External examiner in PhD School in Medicine Microbiology at the University of Las Palmas de Gran Canaria, Spain</p> <p>1999: External examiner in PhD School in Medicine Microbiology at the University of Las Palmas de Gran Canaria, Spain</p> <p>2003: Course on "Molecular characterization of <math>\beta</math>-lactamases produced in Enterobacterial strains" in PhD School in AVANCES EN MICROBIOLOGÍA E INFECCIÓN", University of Las Palmas de Gran Canaria, Spain</p> <p>2003-2010: Courses of Molecular Diagnostic Methodologies (degree in Biomedical Laboratory Techniques).</p> <p>2003-2010: Courses of Clinical Biochemistry and Clinical Molecular Biology (degree in Biotechnology).</p> <p>2006: Teacher on "Detection and characterization of metallo-<math>\beta</math>-lactamases", 36th European Society of Clinical Microbiology and Infectious diseases (ESCMID) Postgraduate Course, Verona, Italy</p> <p>2007-2009 and 2013-2014: Courses of Clinical Biochemistry and Clinical Molecular Biology (degree in Medicine).</p> <p>2010-2018: Courses of Clinical Biochemistry and Clinical Molecular Biology, degree in Biomedical Laboratory Techniques.</p> <p>2009-2018: Courses of Molecular Diagnostic Technologies, degree in Medical Biotechnology)</p> <p>2018-2020: Courses of Clinical Biochemistry and Clinical Molecular Biology, School of Medicine, University of L'Aquila</p> <p>Supervisor of students of the School of Biotechnology and Biological Sciences for the preparation of experimental dissertations in Clinical Biochemistry.</p>
RESEARCH ACTIVITIES	<p>The major research interests are the studies of the bacterial resistance mechanisms towards antibacterial agents, in particular beta-lactam antibiotics. The studies of Prof. Perilli are focalized on the genetic epidemiology of Gram-negative bacteria and biochemical characterization of new beta-lactamases and laboratory mutants. Isolation, cloning, over-expression systems and sequencing of the gene coding for these enzymes. Production and purification process of the protein target. Studies of the kinetic and thermodynamic parameters. Interaction between the <math>\beta</math>-lactamase and their substrates or inhibitors/inactivators. Studies of structure-activity relationship of the <math>\beta</math>-lactamases.</p> <p>The main areas of research are:</p> <ol style="list-style-type: none"><li>1. Characterization of mobile genetic elements in Gram-negative bacteria resistant to antimicrobial agents.</li><li>2. Biochemical and structural characterization of extended spectrum beta-lactamases and carbapenemases (class A, D and B)</li><li>3. Interaction of beta-lactamases with novel inhibitors or inactivators</li><li>4. Molecular analysis of microbiota by next generation sequencing.</li></ol>
RESPONSIBILITY IN ACADEMIC ACTIVITIES	<p>2014-2021: Coordinator of Master (first level) on "Molecular Diagnostics of Genetic, Cancer and Infectious Diseases", Department of Clinical Sciences and Biotechnologies", University of L'Aquila, L'Aquila, Italy.</p> <p>Since 2017. Deputy Director of Molecular Diagnostics and Advanced</p>

	<p>Therapy Research Centre (DMTA), University of L'Aquila. 2010-2012. Faculty member and tutor in the PhD Course in Biotechnology, University of L'Aquila Since 2013. Faculty member and tutor in the PhD Course in Experimental Medicine, University of L'Aquila. Since 2018. President of Degree Course in Biomedical Laboratory Techniques Since 2019, Coordinator of the PhD Course in Experimental Medicine, University of L'Aquila. Since 2019. Director of Specialization School In Clinical Pathology and Clinical Biochemistry, University of L'Aquila. Since December 2019. Rector's Delegate for University of L'Aquila Web-Site. Since October 2020. Deputy Director of Biotechnological and Applied Clinical Sciences Department.</p>
